

## ATTESTATION OF BEHAVIOR IN MR ENVIRONMENT

**Date:** 08/11/2019

Page 1 sur 1

**From:** Gaëlle LUSSORI, Quality and Regulatory affairs manager

---

The implants, plates and screws, of the company NEWCLIP TECHNICS made in TA6V Titanium alloy are manufactured in titanium conform to the standard ISO 5832-3 and ASTM F136.

The titanium used is a non-magnetic material which does not induce heating nor migration in MR environment.
